[Test Plan] belajar-bareng.onrender.com version 1.0

Document Status	FINAL
Test Plan Creator	Janji Nur Subekti
Test Plan Reviewer	• QA Lead • Digital Skola Team
Version	1.0
Date	03 April 2026 – 05 April 2026

1. Introduction

1.1. Overview Feature to be tested

This Test Plan is created to ensure that all features on the belajar-bareng.onrender.com website function properly and meet the defined requirements. Testing is performed manually using a Black Box Testing approach.

The features covered in this test plan are:

1. Login — Verifying the authentication process including mandatory field validation, wrong credential handling, security testing (SQL Injection & XSS), password visibility, UI/design checks, and session validation.
2. Add User — Verifying user creation including mandatory field validation, input type validation (text/number), character limit boundary values, character encoding rejection, duplicate user handling, and expired token behavior.

1.2. Goals and Objectives

The objectives of this testing are:

- Verify that the Login feature works correctly per defined requirements.
- Verify that the Add User feature functions as expected including all field validations.

- Ensure mandatory fields (Username, Password, Age) are properly enforced.
- Validate that the system rejects invalid input types (special characters, non-Latin scripts, numbers in Username, letters in Age).
- Confirm appropriate error and validation messages are displayed to the user.
- Verify the system is secure against SQL Injection and XSS Scripting attacks.
- Ensure password visibility toggle uses a standard eye icon.
- Verify expired authentication tokens are handled correctly with proper redirection.
- Identify, document, and report any defects found during test execution.

2. Test Item

List of test items (feature / product)

No	Feature	Test Item
1	**Login**	1. TC-LG-01: Login with valid Username and Password 2. TC-LG-02: Login with empty Username (mandatory field) 3. TC-LG-03: Login with empty Password (mandatory field) 4. TC-LG-04: Login with empty Username & Password (both mandatory) 5. TC-LG-05: Login with wrong Password 6. TC-LG-06: Login with wrong Username 7. TC-LG-07: Login with wrong Password & wrong Username 8. TC-LG-08: SQL Injection on login Username & Password fields 9. TC-LG-09: XSS Scripting on login form 10. TC-LG-10: Login using Arabic characters in Password field 11. TC-LG-11: Login using Thai characters in Password field 12. TC-LG-12: Password eye button toggles visibility correctly 13. TC-LG-13: Password field uses standard eye icon (design check) 14. TC-LG-14: No sensitive hint or autocomplete shown on login page 15. TC-LG-15: "Forgot Password" feature availability 16. TC-LG-16: No typos or spelling errors on login page 17. TC-LG-17: Username field rejects special characters 18. TC-LG-18: Login page loads correctly without premature validation messages
2	**Add User**	1. TC-ADD-01: Add User with valid Username and Age 2. TC-ADD-02: Add User with empty Username (mandatory field) 3. TC-ADD-03: Add User with empty Age (mandatory field) 4. TC-ADD-04: Add User with empty Username & Age (both mandatory)

		5. TC-ADD-05: Add User with duplicate Username 6. TC-ADD-06: Username with maximum 10 characters (boundary max) 7. TC-ADD-07: Age with maximum 3 digits / value 999 (boundary max) 8. TC-ADD-08: Age with minimum value 1 (boundary min) 9. TC-ADD-09: Age with value 0 (below minimum boundary) 10. TC-ADD-10: Username with minimum 1 character (boundary min) 11. TC-ADD-11: Username with uppercase and lowercase Latin letters 12. TC-ADD-12: Username with special characters (rejected) 13. TC-ADD-13: Username with numbers (rejected) 14. TC-ADD-14: Username with Chinese characters (rejected) 15. TC-ADD-15: Username with Arabic script (rejected) 16. TC-ADD-16: Username with Thai script (rejected) 17. TC-ADD-17: Age with special characters (rejected) 18. TC-ADD-18: Age with letters/text (rejected) 19. TC-ADD-19: Age with Arabic numerals (rejected) 20. TC-ADD-20: Age with Thai numerals (rejected) 21. TC-ADD-21: Age with Chinese numerals (rejected) 22. TC-ADD-22: Username field accepts pasted Latin text 23. TC-ADD-23: Age field rejects pasted non-numeric characters 24. TC-ADD-24: Expired token during Add User form submission

1. In Scope Testing

List of features to be tested

No	Feature	Requirement / Design Specifications
1	**Login**	• Username and Password are mandatory fields • Wrong credentials must display a clear error message • Username field must not accept special characters • Password field must mask input (••• characters) • Password visibility toggle must use a standard eye icon • System must be protected against SQL Injection and XSS attacks • No typos, spelling errors, or premature validation messages on the login page • Login page must not display sensitive hints or autocomplete suggestions
2	**Add User**	• Username and Age are mandatory fields • Username field must only accept Latin letters (A–Z, a–z) • Age field must only accept numeric input (Arabic numerals) • Maximum Username length is 10 characters • Minimum Username length is 1 character • Age minimum value is 1; maximum is 999 • System must reject Arabic, Chinese, Thai characters in Username • System must reject numbers in the Username field • Duplicate Username must be handled with appropriate validation • Expired authentication token must display a message and redirect to login

2. Out of Scope Testing

List the features of the software / product which will not be tested.

No	Feature	Reasons
1	**Edit User**	Out of scope for this iteration; no edit feature available on the current build.
2	**Delete User**	Out of scope for this testing phase; will be covered in a future release.
3	**Performance Testing**	Load and stress testing are not part of this manual test plan.
4	**Mobile Responsive**	Only desktop browser testing is in scope for this phase.
5	**Backend / API**	API-level and database testing are outside the scope of this manual test plan.

3. Testing Approach

Summary of testing approach that will be implemented during testing phase

The testing approach uses Black Box Manual Testing. Testers interact with the application through the user interface without knowledge of internal implementation. The following techniques are applied:

Testing Type	Description
Functional Testing	Verify Login and Add User features work as per requirements using positive and negative test cases.
Negative Testing	Ensure the system handles invalid inputs gracefully — empty fields, wrong credentials, invalid data types, out-of-range values.
Boundary Value Analysis	Test Username length (min 1 char, max 10 chars) and Age range (min 1, max 999) at their boundary edges.
Security Testing	Verify protection against SQL Injection (TC-LG-08) and XSS Scripting (TC-LG-09) on Login form fields.
Input Validation Testing	Verify Username rejects special characters, numbers, Arabic/Chinese/Thai scripts; Age rejects letters, special chars, non-Arabic numerals.
UI / Design Testing	Check for typos, spelling errors, inconsistent language, premature validation messages, and standard UI icon usage.
Session / Token Testing	Verify expired authentication token behavior on Add User form with correct message and automatic redirect to login page.
Duplicate Data Testing	Verify system correctly handles duplicate Username submission with appropriate validation message.

4. Test Environment

Information about testing environment that will be used during testing phase

- Website: https://belajar-bareng.onrender.com
- Environment: Production
- Browser: Google Chrome (Latest), Mozilla Firefox (Latest)
- Operating System: Windows 10 / 11
- Device: Desktop / Laptop
- Test Account: Username: admin | Password: admin

5. Test Deliverables

No	Deliverable	Description
1	**Test Plan Document**	This document — covers objectives, scope, approach, schedule, risks.
2	**Test Case — Login**	18 test cases (TC-LG-01 to TC-LG-18) covering all Login scenarios.
3	**Test Case — Add User**	24 test cases (TC-ADD-01 to TC-ADD-24) covering all Add User scenarios.
4	**Bug Report**	6 documented defects (BD-LG-01 to BD-LG-06) with steps, actual vs expected results, severity, priority.
5	**Test Evidence**	Screenshots and screen recordings stored in Google Drive linked in the Attachment column.

6. Testing Timeline

No	Task	Estimation Time		Actual Time	
		Start Date	Finish Date	Start Date	Finish Date
1	Develop Test Planning	03 Apr 2026	03 Apr 2026	03 Apr 2026	03 Apr 2026
2	Develop Test Case — Login	03 Apr 2026	04 Apr 2026	03 Apr 2026	04 Apr 2026
3	Develop Test Case — Add User	03 Apr 2026	04 Apr 2026	03 Apr 2026	04 Apr 2026
4	Test Case Review	04 Apr 2026	04 Apr 2026	04 Apr 2026	04 Apr 2026
5	Execute Test — Login	05 Apr 2026	05 Apr 2026	05 Apr 2026	05 Apr 2026
6	Execute Test — Add User	04 Apr 2026	04 Apr 2026	04 Apr 2026	04 Apr 2026
7	Bug Reporting	03 Apr 2026	05 Apr 2026	03 Apr 2026	05 Apr 2026
8	Retest / Regression Testing	06 Apr 2026	06 Apr 2026		
9	Test Report & Sign-off	06 Apr 2026	06 Apr 2026		

9.Test Case – Login

ID	Description	Case	Precondition	Steps	Test Data	Expected Result	Actual Result	Status	Type	Notes	Executed By	Execution Date	Attachment
TC-LG-01													
TC-LG-01	Login dengan Username dan Password sesuai	Valid Login	User have valid credentials	Visit login page		landed on home page	User success landed on homepage	Passed	Positive	Example : dan benar	Andi	24 Jan 2026	
				Input Correct username	admin	User able to fill username	filled correct Username						
				Input correct password	admin	User able to fill password	filled correct Password						
				Click Sign in		Logged in and landed on home page	User sucess login						
TC-LG-02													
TC-LG-02	Login with empty Username (mandatory field validation)	Invalid Login	User is on the login screen	Login page is displayed		landed on home page	User success landed on homepage	Passed	Negative		Janji	03 Apr 2026	https://drive.google.com/file/d/13TPkIwkRQMrhlzFL_10sdbTP_YC8lmQ2/view?usp=sharing
				Leave Username field empty	<empty>	Username field is empty	Username field empty						
				Input Correct Password	admin	User able to fill password	filled correct Password						
				Click Sign in		Validation message “Please fill out this field” is displayed on the Username field	Validation message “Please fill out this field” is displayed on the Username field						
TC-LG-03
